

Louisville District Request for a Jurisdictional Determination Form

This format can be used when you want to determine if areas on your property fall under regulatory requirements of the U.S. Army Corps of Engineers (Corps). Please supply the following information and supporting documents described below. This form can be filled out online and then printed. **It must be signed by the property owner** to be considered a formal request. We require original signatures; faxes are not acceptable. Submitting this request authorizes the Corps to field inspect the property site, if necessary, to help in the determination process. The Corps may also request a delineation of water resources on a property to be submitted. The printed form and supporting documents should be mailed to:

MAPS: Please provide a map or plat (aerial photo, city or county map, soil survey photo, USGS Quad map, etc.) that accurately identifies the physical boundaries of the property. If the property is farmland, it may be necessary for you to contact the Natural Resources Conservation Service for a wetland delineation before you can request a jurisdictional determination.

If you are considering doing work on the property, please identify on a map or in a separate drawing the footprint, location, type of potential work, and water resources. This information will assist us in the determination process and reduce unnecessary delays of processing subsequent permits, if required.

OPTIONAL DOCUMENTATION: Photographs of a field visit unnecessary. We must see construction question, including the grass and trees.

If the property and/or the water resource in question for the survey or delineation to be complete can include may help, such as land improvements, etc.

PROCEDURE: We will review all available information and respond to your request. Many determinations are not complete.
